We have handled headline rarities, modest accumulations, and thousands of coins, tokens, medals, and miscellany that fall in between.

CONSIDER US FOR INDIVIDUAL COINS TO FULL COLLECTIONS — PURCHASE OR CONSIGNMENT

"Ars longa, vita brevis" ("Art is long, life is short"). Wikipedia notes that Hippocrates first said it.

Rephrasing, for those of us whose enthusiasms include numismatics, "Nummorum vita longa, nobis vita brevis," or "Coins live long, for us life is short."

When you move your coins on, we hope you will let us help the process by consignment or sale, whether individual coins, substantial collections, or most anything in between.

It has been a bit over 50 years since Marnie and I first published a print catalog. Since then, my collecting time frame is measured in weeks or months. I had to learn to carefully acquire, enjoy briefly, and then let go in order to have a business.

In that time, we (initially, Marnie and I, and over the past decade, Lief too) have handled many coins of special note and value but also thousands of lesser coins that had their own appeal and notable place in a collection.

Whether you are considering moving your own collection on, or if you are an heir to someone else's collection, please consider us. We know the material. We have over a half century of doing business. And we will treat you and your material with the utmost care.

If it is a few pieces as you refocus or have replaced with something else, we are interested in individual bits and pieces as well.

Our handling of your coins is careful. Our cataloging is thoughtful, well researched, and reflects our understanding of the coins as well as both the context in which they were first issued and their place in modern collections.

We have a client base that goes well back into the last century, and respect for the coins and those who collect them such that we pay close attention to detail. And we publish every sale in print as well as online. This way, those who favor print in hand over digital presentations are also included. And those who see things better when given two different mediums to view are doubly satisfied.

We look forward to hearing from you.

Terms of this auction (Bidding constitutes acceptance of these terms)

1. **Website:** Use of our website (www.davcoin.com) is dependent on acceptance of these terms. We reserve the right to revoke any bids and registrations, restrict access, and modify or disable the site or any of its features, including any specific auction or web store lot(s), at our discretion. We also do not make any guarantees regarding accessibility, accuracy, or security of this website with regard to registration and bidding. However, connections to this website are encrypted via SSL, and any payments processed through this website are handled on a separate server by a secure third party payment processor, in compliance with PCI data security standards.
2. **Bidders and Registration:** Once placed, all bids are final. Lots will be sold to the highest bidder. Bidders personally guarantee that they will pay for their winning bids. If you are a new bidder in our sales, please provide numismatic credit references or include a 25%-of-total-bids deposit with your bids. If bidding by internet, please register and provide the requested information. Client data is kept confidential; we do not share our mailing list or client information unless authorized. In addition to internet bidding, you may bid by mailing the bid sheet included with each catalog, or by email, fax, or telephone. If you choose to telephone your bids, we appreciate a written follow-up. Our practice is to always read back telephone bids and ask for confirmation. So far, we have had no problems with this approach. If you have special instructions such as limits on total expenditures, please talk with us.

   We will always respond to emails within one business day during auctions! If you do not get a reply, we did not get your email. Try again!
3. **Bid Processing:** Bidding through our website will allow instant feedback of the success of any bid. We will enter bids that come in by any of the non-website methods listed above as soon as possible during normal business hours, Monday to Friday, 9 A.M. to 5 P.M. Central Time. On the closing day of an auction the office will open at 8:00 A.M. Central Time. Bids that come from email, telephone, fax or bid sheet will not usually be posted outside of office hours, so any internet feedback you get outside of regular office hours may not reflect this other bidding. We recognize that many people prefer the phone-fax-email-personal approach to bidding. We will accept bids submitted in this fashion until 9:00 A.M. Central Time on the day of the sale. There is NO extra charge for bids submitted by mail, telephone, email, or fax.
4. **Bidding Restrictions:** Please note, we reserve the right to determine opening prices, advances, acceptability of bids and bidding registrations, to bid on our own account, or to withdraw any lot. In case of dispute, we reserve the right to reopen the lot. Bids below the opening amount, typically 80% of the estimate, will not be accepted for online bidding. However, we have always been willing to consider bids below the opening level, or even below reserves, after the sale closes on a case-by-case basis. We work closely with consignors in establishing price levels, reserve levels, and asking prices for lots we offer in an aftersale. Our general consignment terms allow an 80% of estimate level for the consignor so that any coin not reaching this level can be claimed back by the consignor with no charge.
5. **Lot Closing:** For bidders online, lots will be closing every 40 seconds unless a bid is placed during that last 40 seconds. In that case, the bidding window will reset to 40 seconds. Lots will close sequentially, not simultaneously, meaning that no subsequent lots will begin to close until the current lot is closed. Allan, Marnie, and Lief will be available by telephone during most office hours but particularly during the week the sale closes. Keep in mind that last minute calls may not get through. We will attempt to call back if you leave your number. Allan has found in bidding online in other sales that establishing a reasonably strong limit usually brings success and frequently at less than his maximum.

   In general, bid strongly on lots you particularly want. Your final price will be one advance beyond the next highest bid. Also please note, we do NOT charge a buyer's fee, so the price you win the lot for will be the price you pay, plus any charges for shipping or payments made with a credit card (see 7. Payments and Invoicing).
6. **Estimates:** We have estimated conservatively, assigning values that we believe reflect the moderate end of current price ranges. Some lots have reserves. In no case is a reserve higher than the estimate. We will not enter bids for less than the opening of the lot (typically 80% of the estimate), though we will consider them at the end of the sale for unsold lots.
7. **Payment and Invoicing: THERE IS NO BUYER'S FEE!** Please bid in US dollars. Payment should be in US dollars or British pounds by check, money order, wire, or direct deposit into our Barclay's sterling account (details provided to all United Kingdom buyers and to others on request). We will determine the pound rate at the time of invoicing based on reported rates. We also accept MasterCard and Visa, both over the phone and through our website. However, following the practice of other firms who find, as have we, that collections and fees add to the overhead of these sales, we will add a 3% administration charge to all credit card invoices (pursuant to Minnesota Statute 325G.051) and to invoices unpaid after 30 days. We will follow the billing instructions you note on your bid sheet or at the time you bid. We can work out a time payment schedule if that is necessary—please ask about this option before bidding.

   If you are paying in British pounds, the rate used will be based on the effective exchange rate, £ to $, at the time of billing. Bids must be placed and will be processed in US dollars. We will invoice in both US dollars and British pounds for any client who requests it. Sterling payments will be made directly to our sterling account.
8. **Payment and Delivery of Lots:** Invoices will be sent to online bidders by email soon after the sale, and by regular U.S. mail to people for whom we have no email address, or who bid via mail, phone, or fax. Payment is due on receipt of invoice. Packing and shipping costs will be added to all invoices. U.S. buyers will receive lots by U.S. Priority or Express mail, fully insured. Shipments outside the United States (including to Canada) are sent insured by U.S. Priority Mail International, FedEx, or DHL. Buyers outside the United States should provide any special shipping instructions. All shipments outside the United States are sent at the buyer's risk but we make strong efforts to get your items to you. Packages valued over $50,000 will require special arrangements which we will make with you after the sale. We carry insurance on material we mail out of the United States and will seek reimbursement for lost or damaged items. In two decades of running these sales, we have yet to have a problem with shipping we could not resolve though there is a short list of countries (non-Euro zone) to which we will not ship.
9. **Authenticity:** This is an auction sale, not an approval sale. All lots are guaranteed to be genuine and as presented online. Any claims, other than claims of authenticity, must be made within three days of receipt of lots. N.B. Attribution and condition are the opinion of the cataloger and no warranty is expressed or implied. Conflicting opinions about grade by grading services do not constitute a valid basis for return. Our experience is that the U.S. grading services typically do not understand the grading of coins made with extensive hand work. Authenticity claims must be supported by the judgment of recognized professionals or services such as that provided by the I.A.P.N. (In 2008 we returned an electrotype of a Cromwell crown that was slabbed as "genuine" by NGC.) In any event, our maximum liability for any item or dispute is limited to the actual amount paid for the item.
10. Title does not pass until items are paid for in full.
11. Lots sent to Minnesota addresses will have State Sales Tax (7.125%, or the recipient's local rate) added to the invoice unless you have provided a Minnesota resale number.
12. While these terms are current, they are subject to change at any time. The version posted on our website (davcoin.com/terms) will always be the most current version, and in cases of conflict supersedes any version printed elsewhere. Bidding or using our website after we have revised the Terms of Use constitutes acceptance of the revisions, and you will be bound by the revised Terms of Use.
13. There is an informality about these terms that is based on our belief that pages of fine print can never cover every eventuality and that in the final analysis, rules of reason and decency must prevail. Most of the people who take part in our sales have done business with us in the past and we have been able to work out any issues that come up in a friendly and equitable manner. We look forward to making our current and future auction sales a pleasant and enjoyable experience for you and for us.

With NO BUYER'S FEE in this sale you can bid an actual price to pay.

Opening Thoughts

Our first print catalog published the summer of 1973 included an opening note. Since then, I think the record is pretty much unbroken—opening comments, about the catalog or related issues. In a print catalog, each bit of space represents some real estate that might be used to offer things for sale. So, clearly, communicating with you has always been a high priority for us.

Everyone here has focused for many weeks on putting this catalog together. So, for us this note is a wrap-up. For you the reader it provides an overview before you start to turn the pages or change the screen.

- **Gold:** We have an appealing group: choice Byzantine with an exceptional histamenon nomisma (Lot 5); some small one-ounce proofs with interesting topics, hundred-year-old (more or less) gold including three particularly high-grade slabbed pieces, and some interesting US material including a Dahlonega 1851 piece.
- **Greek and Roman:** Some appealing and affordable Greek pieces, including a handsome tetradrachm of Lysimachos and many old collection-toned and patinated pieces... The Roman section is particularly worth study—Republican brockage errors and Republican issues, interesting Provincial and very nice Imperial denarii, antoninianii, and folles; look closely at the issues of the Third and Fourth Centuries—a comprehensive covering of most of the reigns, all handsome coins carefully selected from one particularly discerning collector's efforts.
- **Britain:** Some Anglo-Saxon including an appealing piece from the reign of Offa followed by a William II penny that looks better in hand than in the photo. Scotland, Ireland and the Anglo-Gallic issues form a small part of the sale but all these are areas that have not shown up much in recent sales.

  Five Irish hammered coins may not sound like much but that particular series has always been the scarcest of the British issues and five decent pieces is worth mention. The Irish penny of John is fascinating in its design and the Irish silver farthing is an almost impossible piece to find in any condition. Both are estimated conservatively—neither has shown up recently enough that I was able to find any parallels.
- **D&H Tokens:** Our Summer 1973 catalog offered about a dozen pieces from the series and they have been an important part of our focus ever since. (Recently I watched, and did some bidding, in the Patrick Deane III sale and kept notes on the winning bidder numbers. So many went to the same number that I am sure there were many frustrated bidders in the room and online.) In our sale herein, you will find some particularly appealing Scottish and Irish tokens, most of which are scarce even if Dalton & Hamer don't say so.
- **Lincoln cents:** Many of us began collecting when someone gave us a Whitman penny board and we started looking through rolls of pennies to fill all the holes. It was pretty easy to fill the later boards and albums (1941 to date) until Whitman decided to include the 1955 double-die. The double-die '55 piece offered here is the first I have handled and it is choice—AU58, a grade I consider more desirable than a low number MS piece. The three 1943 zinc-coated steel pieces look amazing—surfaces unlike the hundreds of steel pieces that we usually see. (I still find Lincoln cents fascinating. It was a pleasure to get this series to have and handle even briefly.)
- **The rest of the sale** speaks for itself—unusual items, historic items, large lots that include many worthwhile coins. These lots offer pieces of not enough value to warrant offering as a single piece in a print sale but their historic nature and appeal remain.

Finally, this catalog represents an end to two of the most interesting and important consignments we have handled:

The Frank Robinson Collection of English milled coins, a collection that has helped fill our auctions for several years. The Maundy sets, lots 188 to 193, are the last items we have from this substantial and exhaustive collection of milled coins. Frank is a particularly knowledgeable collector/dealer who formed the collection over many years and we were fortunate and privileged to be able to handle it.

The other major consignment has been **The Patrick Zabel Collection**. I knew Patrick well. We often conversed and I provided many pieces to his collections. He knew many of the dealers, particularly small-firm specialists like we were, and built an outstanding Anglo-Saxon collection along with lesser—but still impressive—collections of Spanish American issues and representations of other historic areas. He built his collections with a discerning eye and on a budget, carefully acquiring choice material over many years.

We have already begun putting together our early 2024 sale, our next signature annual sale where we offer some of the best that we find. There is still room for more. We will appreciate your consignment and handle it as best we can.

From Downey in Australia via an ad published in the October 1998 Downie Journal (copy of the Journal header and the actual advertisement included with the piece). The Australian swan was a Pinches production that is both beautiful and has commanded strong bidding in sales we reviewed. When decimal currency came to Australia in 1966 no dollar coin was planned so a competition by a numismatic magazine (Australian Coin Review) resulted in this winning design by Andor Meszaros. The Australian mint did not mint a dollar coin until 1984. Competition organizers decided to issue the swan dollar privately and it has become a sought-after part of Australian numismatics.
